SERVICE DETAILS

Singapore Diagnostics is among the largest laboratories in the Philippines. It services the laboratory requirements of up to 300 different institutions nationwide, from the hospitals, to the largest clinic chains, to free-standing physician clinics. It is also the only CAP Accredited tertiary laboratory in the Philippines – putting it alongside the world's best laboratories.

When your laboratory tests are done at Singapore Diagnostics, be assured of the highest standards of quality, competence and safety.

QUALITY ASSURANCE

Singapore Diagnostics (SGD), now among the world's best laboratories.

SGD is accredited by the College of American Pathologists (CAP), the gold standard in laboratory quality.

This makes SGD the first and only tertiary laboratory in the Philippines to achieve this milestone, and one of less than 500 international laboratories to meet the CAP standards of accuracy, competence and safety.

This proves that SGD is at par with the best hospitals, medical centres and reference laboratories in the

COLLEGE of AMERICAN PATHOLOGISTS
